

STATEWIDE CHA QUANTITATIVE WORKGROUP

Physical Environment & Social Factors

February 21, 2013

AGENDA

- **Really fast** refresher and follow-up items
- Indicator selection discussion
 - Social Factors
 - Time keeper for this section?
 - Physical Environment
- Next steps for March

REFRESHER

○ Big Picture

- What is the story we are trying to tell about the health of Colorado? Which data are relevant and tell what we know to be true?
- What will the data mean in 5 years?

○ Meeting discussion flow

- Working document as meeting product
- Chopping block- what can we exclude?
- Data gaps- areas that need data?
- Wish list- critical indicators to discuss for inclusion?

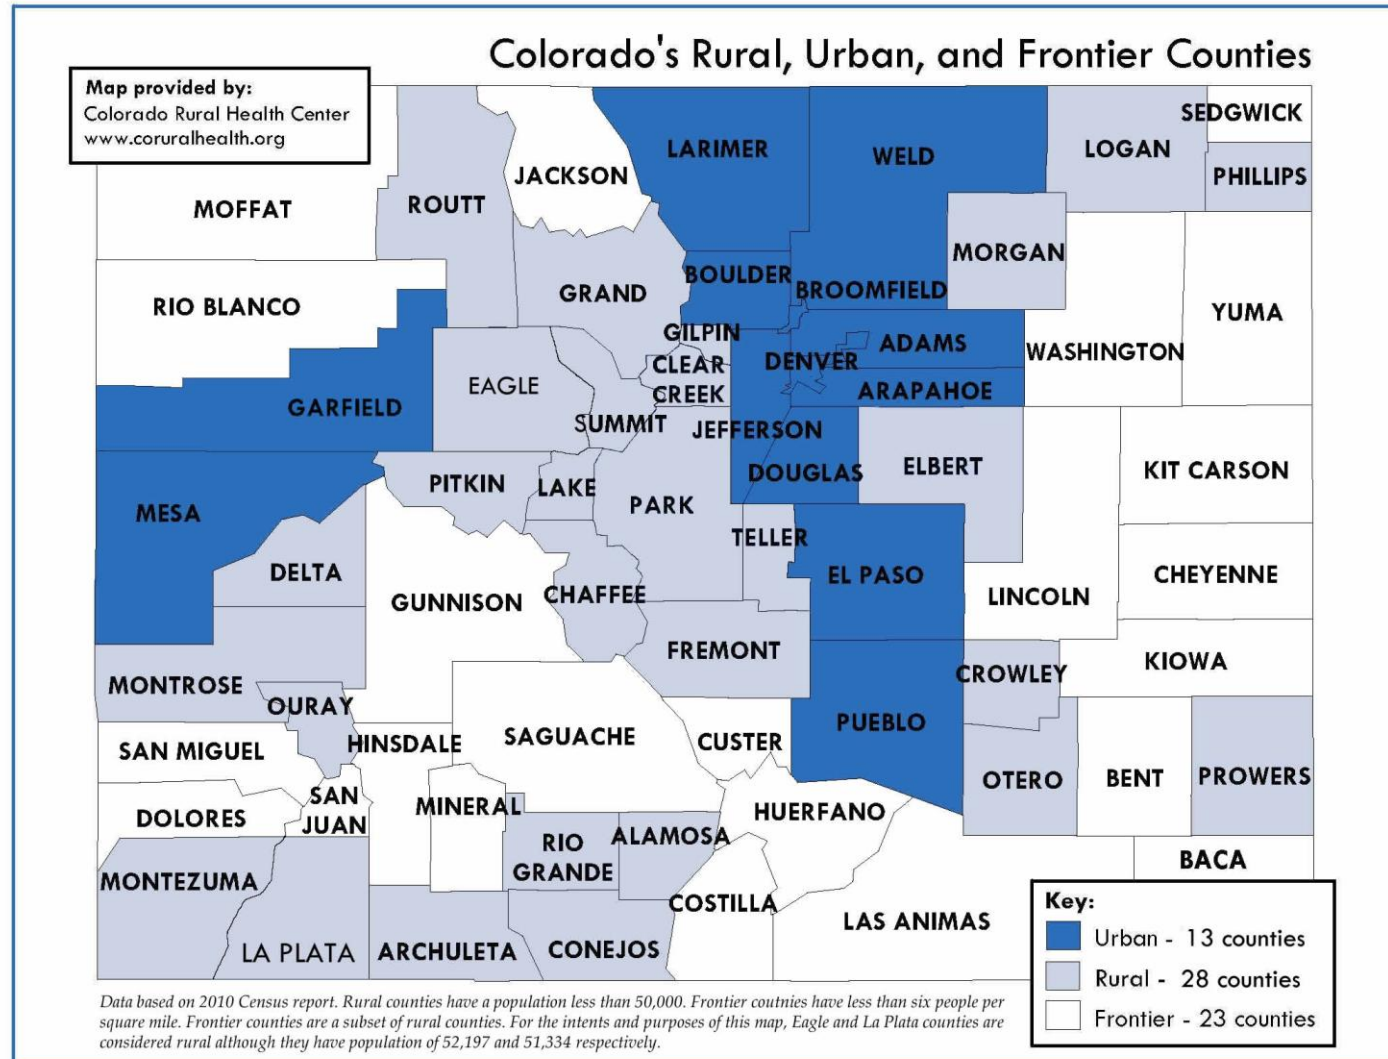

FOLLOW-UP ITEMS

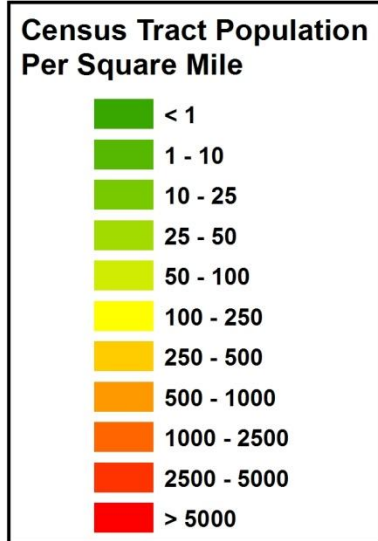

- Urban, Rural, Frontier population map
 - County level or census tract population per square mile?

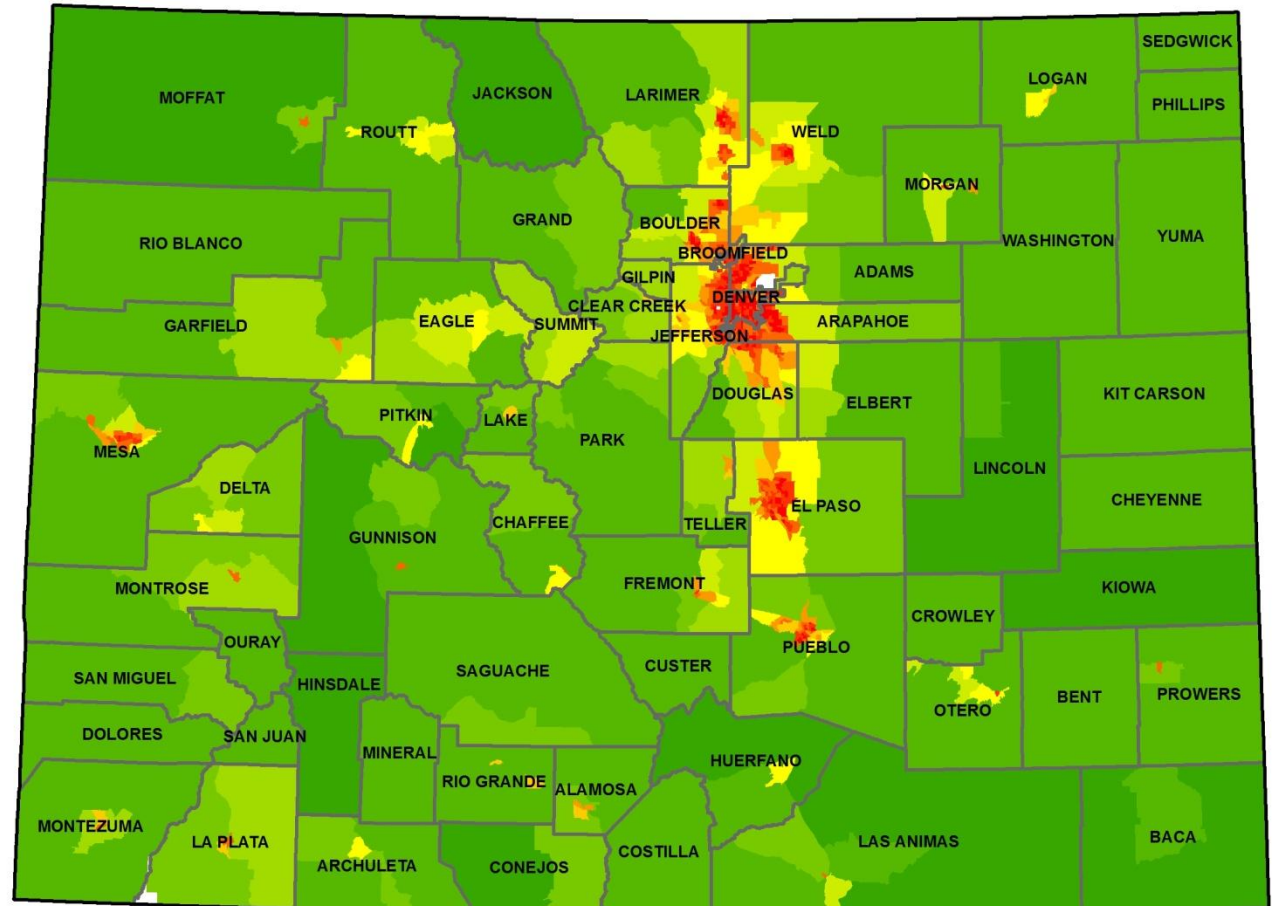

COUNTY LEVEL

Population Density, Colorado, 2010

Source Information:
Tele Atlas /
ESRI Data Updated Demographics /
U.S. Census Bureau

FOLLOW-UP ITEMS

- Need more help with childhood education indicator(s)
 - Percent of children (age 5-14 yrs) who repeated a grade since kindergarten (5.6, 2.9-8.2) CHS 2011
 - Percent of children (age 5-14 yrs) who missed ≥ 11 days of school due to illness or injury (6.0, 3.1-9.0) CHS 2011
 - Use these? Other known proposed indicators?

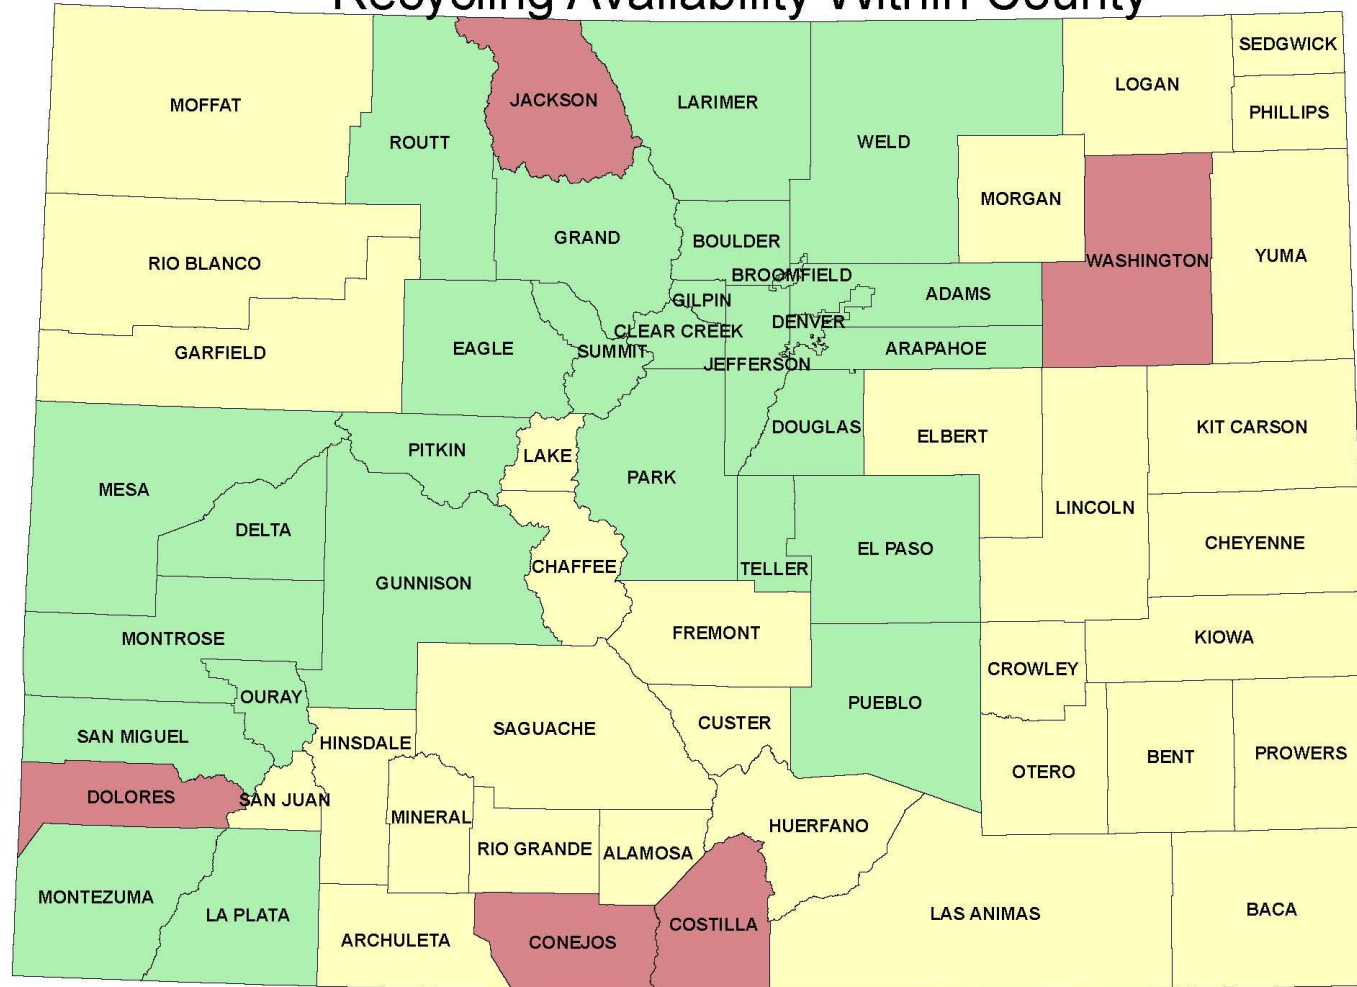

WORKING DOCUMENT

- Social Factors
 - Please start the clock
- Physical Environment

Recycling Availability Within County

	Drop off Recycling Only	31 Counties
	No Recycling	5 Counties
	Curbside Recycling	28 Counties

Updated September, 2011

COLORADO - EPA Map of Radon Zones

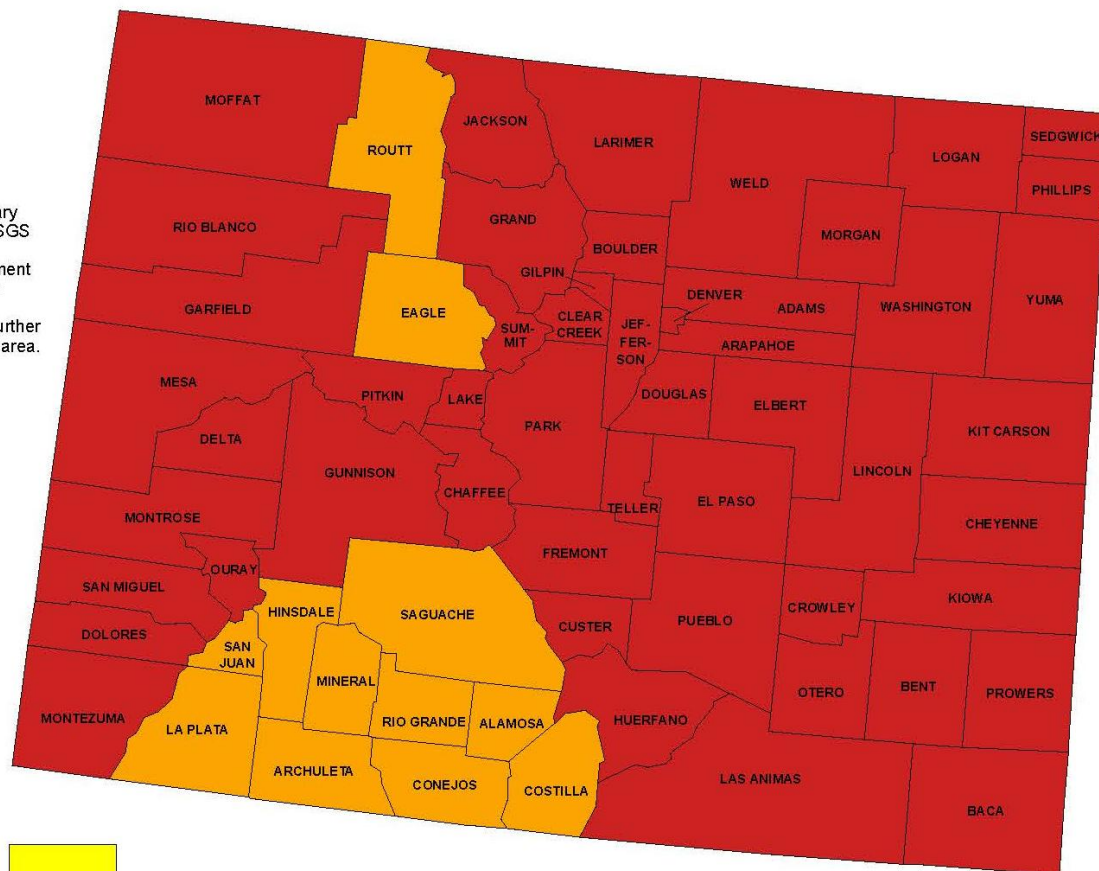

<http://www.epa.gov/radon/zonemap.html>

The purpose of this map is to assist National, State and local organizations to target their resources and to implement radon-resistant building codes.

This map is not intended to determine if a home in a given zone should be tested for radon. Homes with elevated levels of radon have been found in all three zones.

All homes should be tested, regardless of zone designation.

IMPORTANT: Consult the publication entitled "Preliminary Geologic Radon Potential Assessment of Colorado" (USGS Open-file Report 93-292-H) before using this map. <http://energy.cr.usgs.gov/radon/grpinfo.html> This document contains information on radon potential variations within counties. EPA also recommends that this map be supplemented with any available local data in order to further understand and predict the radon potential of a specific area.

Zone 1

Zone 2

Zone 3

MARCH

- Next domain: Health Behaviors & Conditions
 - Only one domain but it's large
- Updates to workgroups about overall progress
- Thanks to Marisa for her time with us- Best of luck on her next adventure!
